 Farmborough Heights, NSW

Profile

Entry level Computer Science graduate with majors in both Cybersecurity and Software Engineering. Proven Skills in research, programming, teamwork and problem solving having achieved a HD in the problem solving course. Currently working part-time in the family engineering business, gaining basic administration and business skills. Volunteered for UOW pulse while studying where skills in communication, event, stakeholder and time management were gained. I'm looking forward to being able to apply my skills but also to learn and improve them.
